

To Whom it may Concern:

The Tukwila Firefighters for Democracy PAC would like to respond to Glen Morgan's complaint to the PDC dated July 10th, 2017.

TFFD is sincerely interested in absolute compliance with PDC requirements, and we are working immediately to update filings as needed.

To address the complaints in order:

**1) Failure to file accurate, timely C3 and C4 reports**

We agree with the complaint. Historically, some reports have been filed past the deadline. However, we believe the reports are complete and accurate, and we are resolved to comply with deadlines going forward. We completely disagree with Mr. Morgan's characterization that this is a pattern to hide campaign contributions from the public. Our PAC's endorsement and support of local political candidates is always a very public and celebrated process and our clear intent is transparent and open participation in the political process.

**2) Failure to list all committee officers, failure to update C1 forms**

We agree with the complaint. While investigating this, we realized that, although the C1 forms were filled out and completed in the ORCA program, we never actually validated and submitted them. This is a case of user error, and we are in the process of validating and submitting the C1 forms for the 2013, 2014, 2015, 2016, and 2017 campaigns. We apologize, and again, it is a simple case of operator error.

**3) Illegal unauthorized expenditure by individual not listed as an officer**

This is due to the issues discussed above in #2, where our C1 forms were not electronically submitted. We are validating and submitting C1 forms for these years that list all officers.

We have changed some of our organizational processes to better handle PDC compliance during our annual leadership changes, and we are sending one of our board members to attend the PDC's ORCA class. We anticipate meticulous compliance with PDC requirements going forward.

Thank you,  
James Evans
