Dear Micaiah,

Thank you for reaching out. Our campaign spent the required \$76.20 on filing fees for the election on 5/15/17. I am unaware as to what \$630 Ms. Sinnott is referring. All of our C-4s were submitted in time but some had been rejected due to an error. There had been an open ticket, for multiple weeks, with PDC Support; specifically Jennifer and Chip assisting us. Jennifer was able to eradicate the error after we provided the zip file and we have had all of our C-4s submitted successfully, at this point. There have been numerous phone calls and email threads showing that our campaign has taken the action to submit everything required, prior to deadline, but an error code with the ORCA system prevented it going through successfully. In the interim, we had (as requested by the PDC) submitted PDFs of the C-4s we were trying to file through ORCA. To the best of our knowledge, the errors have been fixed and further submissions should go through without issue. All of our information, as required from the July 10th deadline, should be accurate and complete. Please let me know if you have any additional questions.
