

In Johnson's most recent 2017 F1 Financial Disclosure, he fails to list any and all assets and liabilities with the exception of his Nordstrom's salary, his City of Puyallup salary and his wife's Puyallup School District salary.

Johnson fails to disclose his house where he has lived for years which he owns and possibly pays a mortgage. This house ownership is verified on the Pierce County Treasurer/Assessor's web site using Johnson's address (listed on his F1) which is 1002 11th ST SW, Puyallup WA 98371

It is also probable Johnson and his spouse have other assets (bank accounts, retirement accounts, 401Ks) as well as liabilities such as school loans, car loans etc etc.

It would appear Johnson went thru the minimal effort to file his F1 and other omissions besides the house asset are missing as I postulated.

In the interest of F1 accuracy, Johnson lists his position as a County Council Member with his term running thru the end of 2020. This is also incorrect. He is a City Council Member with a term expiring at the end of 2019.
