Hello Micah,

In this attached Facebook post from my personal Facebook account there is no indication as to what 'campaign' is being referenced. There are absolutely no terms included that would indicate I am running for public municipal office.

Additionally, the complainant indicated he had told me I was nearing a compliance deadline, and this communication never occurred. I do not know this individual (Thomas Bennett) and commonsense would indicate that he is merely trying to cause a problem where there isn't one.

In the best interest of the public, I ask that you dismiss this complaint on the grounds that it is simply not an announcement of my candidacy for the position I am currently seeking, and I have followed all proper avenues of registration and notification in compliance with RCW 42.17a.

Thank you and have a great day.

Jeremy Hamel
