

Please accept this email as my formal complaint to the PDC regarding false information provided by Edgewood Mayor Daryl Eiding on his F-1 financial disclosure to your Commission.

As reported in the News Tribune this week, Eiding's financial income has been a matter of dispute and public interest as it pertained to his long standing property tax relief with the Pierce County Assessor. The Pierce County Assessor has now rescinded Eiding's tax relief and is reviewing his previous year's eligibility also.

From reviewing Eiding's F-1 reports for the past two years which you have provided me, Eiding has failed to disclose both his and his spouse's Social Security income. Eiding has also failed to disclose income he receives from Pierce Transit as he receives bi-weekly fees as a sitting Board Member.

I would also suggest that Eiding's mayoral salary from Edgewood is also under-reported as his salary according to Public Records exceeds \$60,000.

All of these are inconsistent with Eiding's filing.

Please investigate this matter and take any appropriate action.

Dave
