Jacob,

I see that Eric Geary has filed the C4 report for the period ending 7/25/16. However, it appears that Mr. Geary has somehow filed a report that did not cover the required reporting periods. He filed a report that only covers the period of 6/1/16-6/30/16 rather than the required period of 6/1/16-7/11/16. Along with this issue, the beginning contributions and expenditures on the C4 report filed for the period ending 7/25/16 have decreased from the previous C4 report filed. Again, I would like to file a complaint with the Public Disclosure Commission that Mr. Geary has failed to file and report accurate financial reports in the time and manner required by state law.
