

File a Formal Complaint - Dave Churchman

Butch Power reported 4 months ago (Thu, 10 Mar at 2:37 PM) via Portal Meta

The current Mayor of Puyallup, John Hopkins, has been a member of the Puyallup Council for 4 years. During that period, Hopkins has cast numerous votes and decisions that have benefitted the Puyallup Fair aka the Western Washington Fair aka the Washington State Fair. The decisions have included land, financial and security benefits to the Fair. During this period, Hopkins has been a shareholder of The Fair. I have requested several of Hopkins' F-1 reports during his period on the council and to best of my knowledge, he has never listed ownership of Fair stock on his F1 report. While the actual monetary face value of the stock may be minimal, many valuable benefits come with Fair Stock ownership which is why ownership of such stock is widely desired by those in this region. If this omission was premeditated, it is a shameful act of deception by a public official.
