I received this complaint. I did not sponsor any phone calls to the lady who is complaining. I have never heard of Crossings Research . The firm she mentions has never provided my campaign with any services. Are there any records of the alleged call? In her complaint she mentions the Seattle City Counsel. Why would the attorney for the city of Seattle be involved in matter?

If you need any additional response from me, please let me know. This complaint appears to be unfounded in my opinion. Thank you, Tim Sheldon
