The PUD Dist #1 position is a Non Partisan (NP) position, which does NOT require me to list my party preference. This picture of the signs that Mr. Smith included in this complaint is NOT even my sign, as far as I know Mr. Smith made this sign himself to discredit me as a candidate. Please find attached a photo of my sign with the (NP) symbol on my sign.

I have also included photos of social media post that Norm Smith has posted proving that he is very disgruntled and is trying to ruin both my husband and my character, and we don't even know this man. My husband had to block him on social media, because of his childish behavior.

As far as listing my campaign donations, I submitted to the PDC that I would be accepting less than \$5000.

Btw. The assessor does not show a Devin beach to own any property in Pend Oreille Co. Maybe it is under another name? But now my curiosity is peaked from his rude statement.

Your Friendly Neighborhood Election Terrorist here,
with a post-electoral hangover.

I've been getting messages: "Your candidates won,
you must be happy."

Not exactly.

"My candidates" did not win.

The candidates that I considered grossly unqualified
LOST.

Not the same thing.

What I find the most interesting is that
the outside money that supported
many of the candidates. As far as I
know the smelter owners did not
contribute any monies in this election,
other local corporations did...

I hope that the "outside money"
will show up on the candidates
PDC Reporting documents. For

Mr. Beach, and his wife, can kiss the "junkyard" vote goodbye.

I dont care what people homes look like what I care about is what in inside the people. I dont care if you are pro or anti. It just seems way judgmental. Maybe these people are looking for better opportunity and it's what they feel will help them up.
