Micaiah Titus Ragins,

Thank you for bringing the attention to this complain #42940 from Michael A. Fertakis

The alleged C4 has been filed and the expenses related have been listed as follows:

Postage - \$ 9,074.00

Printing - \$ 6,341.76

I have entered all the expenses in the website under the heading "transactions".

However, I have tried though out the day on 10/30/18 to validate and to upload the report.

The confirmation shows C3 for the period ended 10-29-18 and C4 for the period ended 10-15-18 were confirmed.

However, the C4 for the period ended 10-29-18 was not confirmed and did not even come up. (**Please see the attached PDC confirmation on 10-30-18**)

I have tried to call Jenny Polek, who has been very helpful to me, but the phone has been busy. I even plan to drive down to Olympia to complete the report.

Eventually, I was able to talk to Jenny. I also have seek help from my friends. Finally, we tried to go back to the "Campaign Committee information"

Somehow, the period reporting was marked " primary". I went ahead to re-check the button to "general election". Finally, the C4 report for the period ending 10-29-18 shows up and confirm the submission.

If ORCA had accepted my C4 report period ended 10-15-18, why would it revert back to "primary election" ?

I apologized the C4 report for the period ended 10-29-18 was delayed because of the above situation.

Thanks for your assistance.
