Richland, WA 99352

Randy Walli, Business Manager  
UA Local 598  
1328 Road 28  
Pasco, WA 99301

Dear Mr. Wahlgren and Mr. Walli,

I'm writing to formally request to inspect certain records related to the political action committee operated by UA Local 598.

The fund is registered with the Washington State Public Disclosure Commission (PDC) as the "Plumbers & Steamfitters Local 598 PAC" (PAC).<sup>1</sup> Disclosures filed with the PDC by the PAC indicate it receives contributions from hundreds of employees around the state, including many employees of Intermech, Inc.<sup>2</sup> Disclosures the PAC has filed with the Federal Election Commission (FEC) indicate the contributions are generally made via payroll deduction from employees' wages.<sup>3</sup>

Washington state campaign finance law, specifically RCW 42.17A.495, provides:

(3) No employer or other person or entity responsible for the disbursement of funds in payment of wages or salaries may withhold or divert a portion of an employee's wages or salaries for contributions to political committees or for use as political contributions except upon the written request of the employee. The request must be made on a form prescribed by the commission informing the employee of the prohibition against employer and labor organization discrimination described in subsection (2) of this section. The employee may revoke the request at any time. At least annually, the employee shall be notified about the right to revoke the request.

---

<sup>1</sup> A copy of the PAC's form C1PC is available from the PDC online at:

[http://web.pdc.wa.gov/rptimg/default.aspx?filerid\\_election\\_year=PLUMSF%20301%3A%7C%3A2018](http://web.pdc.wa.gov/rptimg/default.aspx?filerid_election_year=PLUMSF%20301%3A%7C%3A2018)

<sup>2</sup> See, for example, the most recent PDC form C3 filed by the PAC:

<http://web.pdc.wa.gov/rptimg/default.aspx?batchnumber=100858221>

<sup>3</sup> See, for example, the most recent FEC form 3X filed by the PAC:

<http://docquery.fec.gov/pdf/514/201809109121690514/201809109121690514.pdf>

(4) Each person or entity who withholds contributions under subsection (3) of this section shall maintain open for public inspection for a period of no less than three years, during normal business hours, documents and books of accounts that shall include a copy of each employee's request, the amounts and dates funds were actually withheld, and the amounts and dates funds were transferred to a political committee. Copies of such information shall be delivered to the commission upon request.

Accordingly, I would like to request an opportunity for a Freedom Foundation representative to inspect copies of Intermech employees' "written requests" authorizing portions of their wages to be withheld and contributed to the PAC. Alternatively, I would happily accept electronic copies of these written requests.

As it is unclear whether Intermech or UA Local 598 is withholding the PAC contributions as the applicable "entity responsible for the disbursement of funds in payment of wages or salaries," I'm submitting this request to both.

If the appropriate entity has not begun working in good faith to provide us with or permit us to inspect the requested records by Friday, October 12, 2018, we will bring the matter to the attention of the PDC.

Please feel free to contact me with any questions regarding this matter.

Sincerely,

Mr. Nelson,

I just left you a voice mail on this. My firm represents UA Local 598's political action committee. I have reviewed your September 27 request for employee authorization forms. We had a couple of questions. Are you interested in an example of the form, or do you want copies of all of the forms? If it is the latter, in what format would you like them? Our thought is transmitting them electronically makes the most sense.

If you are interested in all of the forms, there may be some redaction necessary, but we can certainly begin rolling production by Friday.

Let us know.

Yours,

James E. Barton II

Cindy,

My name is Jim Barton. Torres Law Group, PLLC represents UA Local 598 in political law matters, and I am the attorney addressing the request from the Freedom Foundation for dispatch forms.

I've been in contact with Max Nelsen from the organization and assured him that we would get the requested records over to him. He understands we are responding and recognizes there will be some processing time. He acknowledged that the date of this Friday was somewhat arbitrary for a response date, and that, in terms of his letter, we have "begun working in good faith to provide" the requested documents.

In short, you do not need to worry about taking any further steps. Nick will be in touch with you if we need anything, but we are working the Freedom Foundation to get them the documents.

Feel free to contact me or Nick if you have any questions.

Max,

Attached are the dispatch forms for Apollo and Intermech from 2016. The office is in the process of redacting the social security numbers from the 2017 and 2018 forms. It will probably take a few days each, but it appears the files are small enough that we can email them to you without trouble.

Let me know if you have any questions.

### Work Assessment Check-Off Authorization

I authorize the Employer to withhold and to pay working dues on my behalf at the current rate of 3% and IAP at 2.5% of my gross pay to Local Union 598. So that the common interests of Local 598 members to secure jobs, fair wages, and safe working conditions can be heard by state and federal candidates for office, I voluntarily authorize and direct the above-named employer and any signatory to the Collective Bargaining Agreement for whom I work to deduct the suggested 0.70% (0.0070) as ratified by the Local 598 Membership, each week from my pay for transfer to the Local 598 Political Action Committee, where funds will be used for federal or state races as deemed necessary by PAC leadership. I understand that I have a right to refuse to so contribute without any reprisal. Furthermore, I recognize that the contribution guideline is just that, and that I may contribute any amount or not at all to the Political Action Committee - although only the suggested amount is supported by the paycheck deduction process. Contributing an alternative amount will require contacting the Local's staff. Furthermore, I understand that to comply with the Federal law, the PAC must use its best efforts to obtain, maintain, and submit the name, mailing address, occupation and name of employer of individuals whose contributions exceed \$200 per calendar year. I understand that my contribution is not tax-deductible. This authorization shall be valid for the period of one year or the balance of the term of the current agreement, whichever is sooner, and shall automatically renew itself for successive one-year periods. This authorization is subject to cancellation by written notice to the Employer and Local 598 given within the 60-day period preceding an automatic renewal date.

### Work Assessment Check-Off Authorization

I authorize the Employer to withhold and to pay working dues on my behalf at the current rate of 3% and IAP at 2.5% of my gross pay to Local Union 598. So that the common interests of Local 598 members to secure jobs, fair wages, and safe working conditions can be heard by state and federal candidates for office. I voluntarily authorize and direct the above-named employer and any signatory to the Collective Bargaining Agreement for whom I work to deduct the suggested 0.70% (0.0070) as ratified by the Local 598 Membership, each week from my pay for transfer to the Local 598 Political Action Committee, where funds will be used for federal or state races as deemed necessary by PAC leadership. I understand that I have a right to refuse to so contribute without any reprisal. Furthermore, I recognize that the contribution guideline is just that, and that I may contribute any amount or not at all to the Political Action Committee - although only the suggested amount is supported by the paycheck deduction process. Contributing an alternative amount will require contacting the Local's staff. Furthermore, I understand that to comply with the Federal law, the PAC must use its best efforts to obtain, maintain, and submit the name, mailing address, occupation and name of employer of individuals whose contributions exceed \$200 per calendar year. I understand that my contribution is not tax-deductible. This authorization shall be valid for the period of one year or the balance of the term of the current agreement, whichever is sooner, and shall automatically renew itself for successive one-year periods. Hi James,

Thanks for working through this. I appreciate your cooperation. I just have one last question.

Best as I can tell, UA Local 598 has used two different versions of its dispatch forms since 2016. It looks like the union adopted an updated version recently.

Are these two versions of the dispatch forms uniform across employers with which UA Local 598 interacts? In other words, if I requested copies of all signed dispatch forms in use by UA Local 598 across all employers since 2016, would there be any that differ from the format of the two versions I've already been provided?

Best,

Mr. Nelsen,

You are correct in that Intermech is the entity that actually withholds the funds for PAC from the employee's checks. The union is not involved in our payroll processing. At the end of each month, Intermech remits reports and payments to the Local 598 Trust Funds in Port and, OR for a fringes and deductions.

Also, attached you will find a copy of the Local 598 CBA (section pertaining to Fringe Benefit Funds).

Please let me know I can be of further assistance.

Ms. Cook,

Thank you for following up. I am in touch with Mr. Bahnsongroup. As requested, he has begun sending me copies of the UA Local 598 dispatch for my authorization regarding employee's to deduct contributions to the union's political action committee from employees' wages.

After reviewing the first batch of forms Mr. Bahnsongroup provided me, I have a couple questions I'm hoping you can answer. First, am I correct in my understanding that Intermech is the entity which actually withholds the funds and transmits them to the union PAC? In other words, the union is not involved in the payroll process, correct? Mr. Bahnsongroup indicated as much to me over the phone, but I wanted to confirm with you directly.

Secondly, does Intermech have a collective bargaining agreement with UA Local 598 that contains additional provisions regarding how union membership dues/PAC deducts are to be handled? If so, would it be possible for you to send me a copy?

I appreciate any guidance you can provide. I'm not terribly familiar with how unions/employees interact in the building and construction trades.

Thank you.

Hi Donna,

Thanks for clarifying that for me. Would it also be possible for you to send over the portion of the current CBA governing union membership/payroll deductions? I think it might be Article 6. It is probably labeled "Union Security."

# UA LOCAL 598 NEWSLINE

UA Local 598 Plumbers and Steamfitters: 1328 N. Road 28, Pasco, WA 99301

## BUSINESS MANAGERS REPORT

Dear Brothers and Sisters,

Welcome to our newly formatted newsletter! We are starting new sections in our newsletter that will feature Business Agents reports, Political Action news, a section featuring our retired members and Local 598 history. I hope you enjoy Local 598's former Business Manager Ray McKnight's newsletter from January 1980.

I would like to take this opportunity to talk about some of the things we have been doing since the last newsletter in May.

Local 598 held an Election for Business Manager following Brother Berglund's retirement in April. I am very proud and honored to have been elected Business Manager on a White Ballot at the June meeting.

I set both short and long term goals that I presented at the May union meeting. We have been diligently working to achieve those goals and this is what we have accomplished so far:

- We started a Website to improve member services and to communicate better with the membership and our communities. Our website is up and running at any of the following addresses: ua598.org, ua598.com or ua598.net. There are sections on the website that require a username and password. Please use your last name as your username and your card number as your password.

- Through the LMCCT, Local 598 and our Signatory Contractors have been working on our community image by helping sponsor many events like the Tri-Cities Water Follies. It's the single largest event of the year in the Tri-Cities. By helping sponsor the Unlimited Hydro Plane Races Local 598 received media coverage on TV, newspaper, radio and race programs. Our Local 598 banner was prominently placed in the race pits during the race weekend. With our sponsorship came 20 or so event tickets that were raffled off at the July meeting to our members. I would like to thank the Local Contractors that sit

on the LMCCT Committee who donated the contractor's portion of the tickets to that raffle. We have also helped sponsor all the professional teams here in the Tri-Cities. Look for our Local 598 sign at the Tri-City Americans, Tri-City Fever and Tri-City Dust Devil events.

- On the Political Front we have now started an active Political Action Committee and our intent is to become a political power here in Eastern Washington and Northeast Oregon. We are happy to say that the Committee has hit the ground running and has been very active in the upcoming elections. I would like to take this opportunity to thank all of the Members of the PAC for their time and efforts.

- Getting our prevailing wage back has been at the forefront of our efforts and will continue to be until we are successful.

- Organizing efforts have been focused on getting small shops for small jobs and we are starting to gain ground there.

- Owner, Client, Contractor and Union Relationships:

The UA's Standards for Excellence (SFE) is one of the cornerstones of the UA's Strategic Plan. They uphold the highest industry standards for quality in the work place. The implementation of these Standards provides us a great opportunity to showcase the skills and professionalism of Local 598 members. This is why Local 598 is in the process of implementing the UA's SFE on virtually every job. Local 598 has always been committed to Excellence. We have said many times that we are the "Best of the Best." It is important we support this program. When you read the responsibilities of both Labor and Management, you will see that both sides are required to uphold their end of the SFE in order for it to work. UA General President Hite has expressed the importance of this partnership and we the leadership of Local 598 know it's the right thing to do. This is an opportunity for us to show our Contractors and our Clients what a partnership with Local 598 and the UA is all about. We know it is vital that we

take ownership of these standards because it will protect the well-being of our Local and our contractors for many generations to come. Please join me in embracing the Standards for Excellence Initiative and at the same time proving that the UA Local 598 continues to "Lead the Way" in the Construction Trades.

- In closing, Local 598 is very fortunate to be enjoying prosperity in a time when the rest of the country is in the middle of a deep recession. We must not be content with the prosperity we now enjoy. It is very important that we stay persistent in protecting our jurisdiction to secure our future during these times of full or near full employment. It's our duty to always be striving to improve our position for the future. Please join us in making Local 598 an even stronger and better Brotherhood by endeavoring to be the best we can be. I encourage all of us to read our oath in the UA Constitution from time to time. This will remind us of what we all promised each other when we became members of this great Local Union.

## Report of Assistant Business Manager

Greetings to All My 598 Brothers and Sisters,

For those of you that may not have met me, my name is Patrick Zorich and I am currently serving as the Assistant Business Manager of Local 598. My primary area of responsibility is the Hanford Site. As such I'd like to give a brief rundown of what has been happening there and what the future indications are.

The work under our Hanford Atomic Metal Trades Council (HAMTC) agreements over the past two years has experienced a surge in employment due to the American Reinvestment and Recovery Act (ARRA) or Stimulus Plan. As this funding has come and gone there has been a significant reduction to the HAMTC represented workforce including those represented by our Local Union. Unlike many of the

other affiliated unions that make up HAMTC, the number of Plumber/Steamfitter positions is higher now than before the ARRA funding. We went from 107 positions up to 159, and now have settled back to 129 positions. While this net gain is a positive for our Local the near and long term forecasts are unclear due to funding uncertainties.

On the Building Trades work front we also experienced a surge due to ARRA funding in the form of several pump and treat projects at 100-D, 100-H areas and 200-West. These projects have been primarily completed with some ongoing punch list work and acceptance testing still being performed. The funding for other Building Trades work is expected take a bit of a hit, for example, the work in the Tank Farms. However the funding levels for the Waste Treatment and Immobilization Plant (WTP or Vit Plant) seems to be stable at this point although anything is possible. The long term manpower schedule

for this Project indicates a steady UA workforce with the possibility of some hiring for night-shift and a fair amount of hiring in fiscal year 2012.

In closing I would like to express my best wishes to everyone and a reminder to all of you that participate in hunting to have a safe and successful season.

Warmest Regards,  
Patrick A. Zorich

Brothers and Sisters:

I'd like to pass on some information about VESDA Systems. For some of you this will be just a reminder, so bear with me, VESDA stands for "Very Early Smoke Detection Apparatus." The VESDA system is an aspirating smoke system that samples the air from a protected zone for the presence of smoke. The air sampling system makes this possible by providing the means for transporting the air from a protected zone to the detector. The air sampling system is active, meaning that it continuously draws in air samples by means of an integral aspirator, largely irrespective of ambient air conditions in the environment. It is not reliant on air currents within a fire zone bringing smoke particles to the detector and can function effectively in all kinds of environments- from high air flow to still air.

The basic component of the air sampling system is the sampling pipe, usually of low cost PVC pipe. These systems are used in Data Centers quite often but are found in other job applications as well.

VESDA Systems are UA work. At the UA /IBEW joint committee meeting on March 22-23, 1994, it was

agreed that the installation of VESDA type systems would be completed as follows from the agreement dated March 23, 1994:

- The complete installation of the air sampling piping system, regardless of materials used, would be performed by members of the United Association.
- The complete installation of the electrical system, regardless of voltage, would be performed by members of the IBEW.
- Control cabinets and panel boards would be installed as per the Panel Board Understanding dated August 22, 1968.

Bottom line: VESDA piping systems are the work of the UA. On some jobs the UA Sprinks are given the work because of it being under "Fire Protection." Never the less, Brothers and Sisters, if you run across VESDA piping systems on your job, make sure that the UA is doing the work whether it be pipefitters or sprinkler fitters. The fact that the IBEW has been our biggest opponent there are cases where sheet metal has even tried to claim our work on VESDA Piping Systems.

**Brothers and Sisters:**

As we come to the completion of a successful spring and summer we would like to thank the Stewards and the Sisters and Brothers that put all the hard work and dedication that went into making our jobs and local contractors a success. Superior craftsmanship and professionalism that our membership produces on a daily basis is what puts Local 598 at the top of the industry.

Double-Kold and Central Washington Refrigeration are currently wrapping up another great season with both contractors reporting that they are completely satisfied with our Membership both local and traveling. Parsons is still slow but maintaining the current man power, we will continue to work with them to procure more work. Apollo has a number of projects currently under construction and more to start by years end.

Local 598's future looks bright with the possibility of several outstanding projects within our jurisdiction

with the PG&E Cogeneration Plant's at the existing Coal Fire Plant Site, The Boardman Cellulosic Ethanol Plant and REC. We will work hard to insure that these projects come to fruition for our membership.

We continue to work hard on the prevailing wages issues that currently affect the livelihood of our Local Union. We are aggressively monitoring all prevailing wage projects that are currently under construction in our jurisdiction as to assure the nonunion contractors are paying the correct wage and following all other applicable laws. We are attending all relevant meetings with L&I, Rebound and developing a new relationships with the Department of Labor. We have begun discussions with the Torres Law Group out of Phoenix Arizona who specialize in Davis Bacon issues and compliance. The Torres Law Group has had numerous successes in getting nonunion contractors and projects in compliance with Davis Bacon Law.

In closing I would like to thank each and every one of my Brothers and Sisters for the outpouring

of support over the last 13 months. During this time of great learning your kind words, benevolence and help has been the driving force in my work life. I will continue to work hard to provide the best service possible for our local union members and to keep with our deeply rooted principles of Protection, Fidelity, Education and Benevolence.

Fraternally Yours,  
Tim Still

**ORGANIZER'S REPORT**

**Don Williams**

I would like to start by explaining to you the members of this Local, that it is an honor to represent this membership when speaking to local contractors, city officials and business owners in our jurisdiction. The learning curve has been very steep since I gained this position in May. My eyes have been opened to many of the challenges we face here locally and as a national trade union. One of which has been the lack of training for our new members, apprentices and even our long time members of Local 598 as to the organizing needs and efforts.

We will be starting the renewal of COMET (Construction Organizing Members Education Training) in very near future. New members and Apprentices will receive COMET training. We must educate our Brothers and Sisters of the importance of organizing in the modern day as well as the past. I recently attended the "Train the Trainer" course offered by the UA and WSA. This course is very important as it explains the

challenges we face as a union organization. It is our General President's belief and mandate that we will organize as our "forefathers" did when our Union was formed. I now know that every member of our Local and every Local nationwide needs to be informed of the challenges that were faced by our founders and what we are faced with in the present day. I also know that many members do not agree with or embrace the organizing efforts of the UA. This attitude must change; we started this Union as all Unions, with an "organizing campaign." We did not get to the strength in numbers that we currently have, without accepting members whom "toil in the same industry as ourselves." It was and belief our founders that ALL men and women that install piping should be accepted into the UA.

We are looking to the future, but also reflecting in our past. The mistakes that have been made in our past were not done with malice, or done with intent of harm to our Union. Over the last fifty years we stopped organizing the members of our communities that learned our crafts and fell into the beliefs that "they can't build it without us." We have found this not to be accurate. We the UA are doing less than 20 percent of the piping work in country currently. Unions as whole are at about 11 percent of the work at the present time. So we must realize that the "open shops" can and will continue to do the work. We cannot afford to just sit idle and watch our market share decline any further.

Here at Local 598 we are focused on gaining market share by organizing contractors that will bring jobs with them, getting into markets that we have lost over the years such as food processing, plumbing service and HVAC-R Service. We must as union members become active in all arenas, such as politics, community involvement and organizing.

As I mentioned earlier, my eyes have been opened to many of the challenges we face in this great organization that we love and truly support. I am asking you as members new and old to come and learn what each of us can do to educate ourselves as Brothers and Sisters of this Local and make ourselves stronger.

Fraternally yours,  
Brother Don Williams  
Organizer

## Political Action

Tim Still

Brothers and Sisters:

Your Political Action Committee reconvened on July 5th 2011 where the Committee adopted By-Laws, elected Officers for the first time in recent memory. With newly elected officers in place and two new appointees your Committee stands at seven (7) members.

The committee has been given the task of starting to rebuild our Local Unions relationship with all elected officials within our jurisdiction. From U.S. Senators to School Board Members your Committee is dedicated to putting a face with the endorsement from Local 598. Through a questionnaire and interview process where a candidate comes before the Committee to assure that the principals of such candidates align with Local 598 and labor in general.

I am sure that you will agree that it is long overdue for our great Local to "get back in the saddle" when it comes to politics. Our Union has always had a tie with politics and it is at the direction of Business Manager, Pete Nicacio that we rebuild these bridges to strengthen not only our Local but the communities that we love and live in.

With the fronts coming from all directions against labor unions and the founding principles of the labor movement like the "right to collectively bargain" under extreme attack we cannot afford to remain idle Brothers and Sisters. We must educate ourselves on the issues and the candidates and place an educated vote that will assure our rights will remain for generation to come. With anti-labor legislation in over 20 states including our own, the time to come together at the polls could never be greater. No longer can we abstain from casting a ballot, because the people that want to see unions become a thing of the past are not abstaining, they continue to gain seats and power every year. It is time that we show these people who we are and what we stand for. So we urge all of our brethren to not only vote but to help educate our community on our issues and why "what is good for labor is good for our neighbor."

Please feel free to contact any of the Board Members if you have any input or would like to help.

Fraternally,  
Brother Tim Still

# LOCAL 598 HISTORY *The Seventies*

## BUSINESS MANAGERS REPORT

By Ray McKnight, January 1980

### "THE SEVENTIES"

The seventies were ten years of uphill battles, victories and frustrations, lock-outs and strikes and finally the reward of full employment, good wages and fringes and pensions with dignity.

Many of our members are unaware of our fight for independence in 1970. Some may have forgotten, many are graduate journeymen from our apprentice school, some new members from our organizing or transfers who couldn't know. The trouble with battle scarred veterans like me is we tend to assume everyone knows our history which is not a good assumption.

When the seventies commenced however unemployment prevailed, the future was uncertain and Local 598 was locked into a state-wide bargaining unit called the Washington State Board of Negotiators.

Members of this negotiating board for the Washington State Local Unions were elected at conventions of the Washington State Association of the United Association. Conventions were held every year, with negotiators terms running for three years and with terms running in an alternate manner, generally 2, 2, and 1, with five board members. Strange- but true, board members were not even required to be Business Managers.

In 1970, eleven UA Locals participated in negotiations under this system. Each Local Union, at the convention, had 2 votes for the first 100 members and one vote for each 100 thereafter. On the surface this appeared to be fairly democratic. However, the majority of Local Unions had 200 or less members, giving the smaller locals powerful voting strength. The largest, Local 598 found simply that all of our proposals were repeatedly voted down.

"The trouble with battle scarred veterans like me is we tend to assume everyone knows our history which is not a good assumption."

Changes in the contract for wages or for any other proposals were submitted to the convention as resolutions by the Local Unions. Management knew exactly the amount of wages and the contract changes the unions were requesting before the negotiations ever began.

Wages were deplorably low; we had slipped behind almost ever craft. Under this system, would you believe, our basic wage in 1970 was \$5.95 per hour, while Carpenters were earning \$6.17 per hour; Insulators \$6.61; Bricklayers \$6.55; Electricians \$6.64- ½; Operating Engineers \$6.50; and Sheetmetal Workers \$6.17. Throughout the 1960's and early 1970's Local 598 had voted against every single contract that had been negotiated by the Washington State Board of Negotiators, only to see the contract ratified by vote of the other Local Unions.

In 1972, at the Washington State Convention held in Olympia, the final blow fell. Local 598's Business Manager James T. Payne, having been appointed to the unexpired term of one of the negotiators, was defeated in his bid for election to the negotiating board. Local 598, the largest Local Union participating in the negotiations was without voice or vote in the 1972 negotiations. The following day, and at our next regular union meeting, Local 598 started withdrawing from the Washington State Board of Negotiators.

In 1972, negotiations were conducted by Local 598 with the Washington State Associations Executive Board for approval for Local 598's withdrawal. Agreement was reached late in 1972, with Local 598 agreeing to remain in all fringes. Although we had problems with contractors over law suits on who could contribute to fringes, it was believed this could be resolved. Later we were to regret this decision on fringes.

In 1973, after lengthy battles with the Washington State Employers Council, and despite the council's filings of law suits and unfair labor practices, we won, in June, the decision from the National Labor Relations Board's Regional Director, to bargain for Local 598. Getting the employers to sit down with us and negotiate turned out to be a problem we did not anticipate. Finally, in July, after notification we intended to strike, meetings were conducted with this council. While these meetings were underway word came from the NLRB in Washington D.C. that they would hear an appeal from the employers that could offset 598's right to bargain. The employers in turn walked out of the meeting. We suspected some of our congressional delegation had put pressure on the NLRB in Washington D.C. to grant the employers appeal.

Through August and September of 1973, we could not get any movement from the employers, because their NLRB appeal had been granted. Finally, in October, Business Manager James T. Payne negotiated an agreement with the newly formed Plumbing and Mechanical Contractors of Washington, the same employer group with a new name, which agreed to negotiate with Local 598, under several conditions. One being a thirty day extensions period beyond the expiration date of May 30th to June 30, 1974.

In April 1974, Business Manager James T. Payne died suddenly from a heart attack. It was a sad time for all of us.

Although negotiations were to get underway in May of 1974, and I had been appointed to Brother Payne's unexpired term, management was unwilling to seriously negotiate until our election was over in July of 1974.

1974 was the turning point for our Local Union,

*Continues on next page*

we had won our independence and for the first time had the right to negotiate our own agreement and the right to vote for our agreement. July of 1974 was a rough hard month, the contractors could not believe we would take a hard line, but 598 did. The day for our union to take a back seat was over -- four years of fighting for this day should have told them so, but it still took a two month strike to convince the contractors we meant to have decent wages and working conditions -- and we did just that!

During 1974 we were fortunate to have the FFTF under construction and Hanford 2 beginning to look like reality, 1975 and the early part of 1976 were good years. Although we were being plagued by law suits, over who could pay into our fringes, from the newly formed MCA of Washington (they had again changed their name from the Employers Council and Plumbing and Mechanical Contractors to this new name) nevertheless Local 598 was enjoying prosperity.

Little did we realize the MCA of Washington would use 1976 as the year to try to destroy Local 598. While 1976 was the year of our Nation was celebrating the Bicentennial of Independence, Local 598's independence was once again being challenged and long hard months followed.

From June of 1976 to late November, Local 598 was locked-out on three major projects, creating hard times for our members as well as the economy of the Tri-Cities. I am not free to discuss as much as I would like to on 1976 because of the law suits Local 598 has pending against the employers and owners involved as well as branches of our Federal Government over this lock-out, except to say, a conspiracy existed to lock us out and a genuine and deliberate action was generated in an all-out effort to destroy Local 598. The die-hard MCA of Washington finally signed the agreement on January 1977, but to the very end they were demanding exclusive recognition before any contractor could pay into our fringe benefit trust funds. In the end, Local 598 had its' own trust funds and recognition of MCA of Washington was a thing of the past.

Not one of us should ever forget 1976, nor should we allow anyone to be critical of our Local Union, as our Local Union showed the Nation what unionism is all about through unity, pride and brotherhood. Not one member weakened during this 1976 lock-out and strike, even though tremendous pressures

## Unions are under attack everywhere. Every legal and illegal means is being used to weaken and destroy unionism.

were being exerted by the newspapers and many others. I am extremely proud of our members and proud to be a member of Local 598 -- let no one defame us!

1977 was to see our training facility and building expansion completed. The expansion was planned and started in 1976. Even though the trying year of 1976 had seriously damaged the finances of our union, we met our obligations upon completion of the building.

In 1978 we had the honor of having the new facility dedicated by Martin J. Ward, General President of the United Association. Following the dedication our "Old Timer's Night" was held with 1600 members, wives and guests in attendance. General President Ward was the featured speaker.

Once again negotiations, in 1979 with the Columbia Mechanical Contractors Association. The contract is a good one, with wage openers in 1980 and 1981.

The phenomenal growth of Local 598 from 900 members in 1970, with hardly work for 400, to over 2,000 members in 1979 and approximately 5,000 U.A. members employed in our jurisdiction. 1970 also saw the mergers of two Local Unions with 598, the Grand Coulee Local and the Yakima Local and we ended the seventies with prosperity and a bright future.

As we enter the 1980's we cannot afford to let

down our guard. Unions are under attack everywhere. Every legal and illegal means is being used to weaken and destroy unionism. I am convinced paid professional agitators have infiltrated unions to aid in the destruction of our unions, what other purpose could anti-union agitators have?

Recent developments on the Hanford Project: A Hanford Contractors Association has been formed and once again they are demanding exclusive bargaining rights and have the blessing of the Department of Energy and the Washington Public Power Supply System. Is this any different than what we faced in 1976 with MCA of Washington? I think not! We cannot afford to lower our guard one second, and any appeasement on our part would be a serious mistake. Tacked on the wall of one of these Hanford Contractors is a booklet with the title pre-dominant, "How to Avoid Unions".

The eighties should and could be the finest years for Local 598, although some of our major projects are finishing up and the delay of Hanford 2 may slow the amount of overall employment, we should have a prosperous 1980.

Dear Brothers and Sisters,

My name is Luther Rogers but most of you know me as Junior. At age sixteen I started NYA School taking welding so I could be a second generation UA member. After making my tests I could not work in Kansas as you had to be eighteen. I went to California and worked in the yards at Richmond, California. When I turned eighteen I enlisted in the US Navy Construction Battalion. Upon being discharged, Local 664, Pittsburgh, Kansas (now Frontenac) gave me credit for time served in service and initiated me to Journeyman status.

A good friend and fellow fitter who worked at Hanford, Washington during the war told me if they ever started up again he was going back and that I should go too. While working on a rayon plant in Tennessee he wrote me letting me know he was at Hanford and that I should get a letter from my doctor stating I was physically fit (a requirement to be hired). I did just that then drug up and came to Pasco the last day of February 1948. I reported to the Hall and there were four guys in front of me. A huge Business Manager came out and asked them what they wanted. They showed their books and he asked where their letters were from the doctor. They replied that they did not have a letter and he told them he did not have any work for them. They left. He then turned to me and said, "Kid, what do you want?" I gave him my letter from the Doctor and he told Sandy to give me a dispatch. This is how I met the first Business Manager of Local Union 598, Vince Larrish and started a long term relationship with Local 598 and various Hanford Contractors.

In June of 1948 a school teacher I met while working on a cellophane plant in Clinton, Iowa joined me here in Kennewick and we were married on June 21, 1948. We are still together after more than 63 years.

At the time the Washington State Association Executive Board members did the negotiations and the state wide scale was \$2.34 per hour and anywhere on the Hanford reservation was \$2.00 a day travel pay. Midwest scale at the time was mostly \$1.50 per hour.

Brother Larrish passed away in 1950 and Rudell Beams was elected Business Manager. While I was working for Kaiser at 100K in 1953 Brother Beams asked me to come in and talk with him. He asked me to take the Steward position at Purex for Blaw Knox. I finished there and he asked me to go to minor construction and be Al Burke's Assistant (Steward), which I did until 1960. RC "Bud" Leffler was then elected as the next Business Manager.

In 1972 Brother James Payne who had been elected to succeed "Bud" called me and asked me to become an Agent and I accepted. In August 1972 he asked me to replace Ray McKnight on the State Association Health and Welfare as a Trustee. In 1976 during the big strike, Pasco pulled out of the State Association Health and Welfare Plan and Local 598 started our Local 598 Health and Welfare Program. I then served 34 years for a total of 38 years as a Trustee before submitting my resignation December of 2010. I am proud to have served on that Committee as I think we have one of the best plans available. I felt comfortable leaving the Trust in the hands of such a good bunch of Trustees.

I am so thankful to have been an active member of Local Union 598. I am busy at home now with my wife who I enjoy very much. I also am proud of my two sons and my grandson (my daughter's son) who are following me in the trade. That makes four generations of us who have enjoyed Local Union 598. We also are so thankful for our retirement pensions. How would we get along without it?

Walk proud, carry on with the wonderful tradition and always protect it.

Apprentices, be grateful for the really wonderful training you receive. I know it is a struggle at times, but as you get going, you will really be thankful you stayed the course.

# TRAINING CENTER

## PICTURES FROM NATIONALS

It has been a busy summer here at the Training Center. You will have to come by and see the improvements we have been making. As many of you recall we received a \$37,000 grant from the UA last spring to purchase new equipment. Welding Coordinator Dan Phillips started buying: four new pipe beveling machines, nine welding machines, and two new track burners. He also arranged for re-piping the oxygen and acetylene and modernizing the system for safety. Finally, we are adding blue flash screens to each weld booth.

We also took advantage of a deal from Milwaukee Tool Company through the UA: buy one and get one free. We bought enough port-a-bands and grinders to keep us going for a long time. I would like to thank the membership for approving the thirty cents per hour increase to the JATC. We have been very fortunate to have excellent employment during a time when most of the country isn't doing so well. We are Training for the Future and saving for the future.

This summer we had the weld shop open on Mondays and Tuesday and many Saturdays. We currently have over 50 Apprentices, plus 17 new Accelerated Weld Program applicants that are in the process of becoming welders. On August 8th we started our 3rd Accelerated Weld Program. There are 17 applicants that are putting in 40 hours a week for 18 weeks. These pre-apprentice students came right off the top of the applicant ranking list and will become apprentices in late December.

Many of you are probably not aware that the Department of Labor rolled out the new Federal Apprenticeship Regulation CFR 29-30 and now the State has made changes to the Washington Administrative Code 296. We are finding ourselves having to make some minor changes to our Standards to comply. Many of the changes have to do with who can teach and what their qualifications as an instructor are. We took 14 instructors to Ann Arbor for Instructor Training Week. This year's training was on the heels of the National Convention so the week was one day shorter, meaning classes were from 7:00 am to 5:00 pm all week. We had three graduates this year: Chris Bezotte, Mark Mokler, and Dennis Tillet. In addition, Dave Hickman and Brad Chitty completed the 40 EPPRI rigging certification, this is one of the hardest courses offered. All of our instructors worked hard and learned new classroom skills to make our training program even better and satisfy the requirements of the new statutes.

On September 19th we started another school year. We have 23 classes scheduled and 136 apprentices attending on Monday-Thursday and Saturday.

We just completed a 32-hour Tube Bending & Pipe Pro Calculator class for Journeymen. We are finalizing the 40-hour Foreman Certification class for all of you that will need the class to keep your certification after the expiration date. We are expecting our first class in January; this will be two nights a week from 6:30 to 9:30. Please sign up at the training center or on the web site. We are still looking for those interested in a Boom Truck certification, and we are working on the Instrumentation Tech I and II Program, and an Advanced Pipe Layout (no math) class for Journeymen.

We are currently in the process of becoming a Certified Pipeline Training Center. More to come on this as the UA finalizes the requirements. At the direction of our Business Manager, Pete Nicacio we will be leading the way.

It is extremely important to continue to improve our skills. As I sit here typing this letter on a computer with a very advanced word processing program, I can't image trying to put this article together on an old manual typewriter. This thing corrects every word I misspell before I misspell it. The same principal applies to our trade; it is paramount that we continue to refine our skills, stay current with certifications, and control our industry by leading the way. This Training Center's mission is to equip each of you to meet ever-changing market conditions. Please contact us and let us meet your Training for the Future needs.

## 2011 Apprenticeship Contests

It was another great year for Local 598 Apprenticeship Contests. Our Local Contest was held on April 8th and 9th at the Training Center. This is a very busy two days, challenging each contestant's knowledge and skills at the highest level. With the pressure of being under the clock, the contestant's character and perseverance are also put to the test. At the end of the two-day event each contestant has a renewed appreciation for our trade and is challenged to continue to develop their skills. I would like to congratulate all contestants for the courage and pride they displayed to step up and compete for the Local. This year's winners were Jacob Dibbert, HVAC-R; Brian Silvey, welding; Dan Glenn, plumbing; and Casper Havranek, pipe fitting. I would like to express my appreciation to our office staff, instructors, and volunteers that make this event possible. There is an enormous amount of work that goes into this event.

The State Contest was held at Local 32 Seattle Training Center in Auburn on May 16th and 17th. Our contestants put in a lot of extra hours in preparation for this

event and competed with pride and honor in true LU 598 form. The State Contest is designed to be considerably more challenging and Jacob Dibbert in HVAC-R and Brian Silvey in welding took the state titles this year. The contestants had a great time, met new friends, and saw how another local training center is set up.

The Regional Competition for District 5 was held in Concord, California on June 15th – 17th. With state champions from eleven states competing, this was a large event with every contestant wanting to go to the International Competition representing their Locals. This year marks the 5th contestant in 5 years, in welding, Steamfitter, and HVAC-R, but no plumber, GO PLUMBERS. At the end of three days of tasks that challenged every aspect of the contestant's respective discipline, we found ourselves in a huge room for the awards banquet: Local Union 598 is going to Nationals in welding. Brian Silvey was beaming with pride when they called his name and he went up front to receive his District 5 Welder Champion plaque.

On August 13 at 4:30 am, Brian Silvey arrived at the Tri-City Airport with the team of instructors headed to Ann Arbor Michigan for Instructor Training Week, where he would compete in a week-long National Competition. Brian is the 3rd welder in the past three years to represent Local 598 at Nationals. The pressure is overwhelming, the week brutal, and competition fierce; at this level there are no losers - every welder there represents the "Best of the Best". While at the end of the week a welder from the Midwest was declared the winner of the competition, for all of us, Brian is still and will always be a winner, and I always shake Brian's hand with pride. Thanks, Brian, for all the hundreds of extra hours you put in to represent Local 598 with pride and honor.
