Hello Ms. Blacksmith,

As I recall, Ms. Shepard made the exact same complaint to the PDC during the 2017 campaign. Could you please check your records and verify prior to my investing additional time responding?

I have been mayor for 13 years and for years prior to and following the 2017 election, I have used videos to inform citizens about challenges facing our community. In an era of Youtube cat videos and social media, using such platforms has become an essential tool to inform citizens. The irony is that CM Shepard has been my administration's fiercest critic about NOT communicating more with the public.

Here are a few examples of videos that I have posted in 2018 and prior to 2017. More can be found by simply searching for "City of Snoqualmie Mayor Larson" on YouTube.

You will note that I never campaign for myself, or others in the videos. They simply present factual information about City history, challenges and ongoing projects and initiatives of the City Council and my administration.

Please advise if you require a more detailed response. Thank you for your time and consideration.

Sincerely,
Matt Larson
