Thanks for your email.

The late filing of Report #100879864 was not willful or intentional. The late filing was discovered in connection with filing the next scheduled report and the late report was promptly filed.

And please note that this committee supported a 2016 ballot measure so nothing about the filing related to an upcoming election so we do not believe that the public was denied access to any information that related to a future election.

We apologize for any inconvenience that this manner may have caused.
