Here's my response to Roger Lenk's complaint:

I was unaware that I had to file again, as I had an open campaign committee from 2016. Because I filed for a different position, I went ahead and setup my new committee with mini-reporting. When asked by the PDC official, I was told that I had completed all of the online filing. I was unaware of the F-1 filing. Once I got the complaint, I went ahead and did that paperwork.

Let it be noted for the committee that Roger Lenk has a lengthy history of filing government complaints against people and organizations that he doesn't like. I have never met this man, nor do I have any explanation as to why he is going after me. I assume it has to do with the fact that 4 candidates are running for State Senate. Lenk's preferred candidate is afraid that they might lose the primary due to having 4 candidates in the race. This is nothing more than an attempt by a career political hack to ruin my campaign and keep me off the ballot.

Thanks,

Ryan Cooper
