Erick O. Agina
Public Disclosure Commission
PDC Case # 33375

Apologies,

I thought I had sent a reply, but it appears that did not happen.

First of all, I thank Mr. Morgan for bringing the shortfall to our attention. A lot of issues were raised and discussed about the level and need for a PAC within the Spokane Valley Firefighters Local 876. It was decided to close the account and the PAC, and make contributions directly to Candidates PAC, rather than PAC to PAC.

I am a part-time treasurer and point of contact for this PAC, and was unaware of the true and timely needs of a PAC. This has been the main challenge regarding this account. I am learning. In the short term, the Closing C-4 has been filed, the past docs (according to ORCA) have all been filed. The banking account used for this PAC has been closed.

The total transactions for the last 24 months of this account were 3 deposits totaling \$1000 from a single contributor (Spokane Valley Firefighters Union), and three contributions at \$250/ea to local candidates. The remaining balance of \$250 was returned to the single depositor (Spokane Valley Firefighters Union).

If this PAC continues to be out of compliance... please advise, and I will make corrections as needed.

Respectfully,
George Hedebeck
