

Micaiah,

I received your request for a formal response, on the 19th of March, to a complaint submitted to you from the Spokane County Sheriff, Ozzie Knezovich. I have forwarded the complaint on to my attorney for his review accordingly, however, who is currently out of the area and unable to immediately respond on my behalf by the 26th of March - within the 5 day window as provided.

In reading the complaint, I note that Knezovich didn't submit ANY supporting evidence – which makes a detailed response, on my part, reasonably impossible. Is your request within the guidelines of your Department's policies and procedures?

For the record, I deny all the undocumented allegations – I have made NO formal announcement for placing my name on any ballot, for any elected position, and especially; to the Sheriff's good friend Mike Fitzsimmons on the KXLY radio program in 2015, or participated in seeking the business support of any one, "single," individual in my alleged announcement, or in economically supporting any individual in the production of any Documentary against Knezovich – NONE – but not that I am unworthy of one in my continued efforts and focus on my efforts to hold Knezovich accountable in the death of a Pastor and a Child resulting in a very real costly and unexplained outcomes to the taxpayers of Spokane County.

As, a part of Knezovich's conspiracies and cover-ups, in just the past 6 months, he has made false statements to Spokane County Deputies alleging that I made "death threats" against him, his wife, and his family resulting in my false arrest, during a very public event at a public high school, resulting in my false incarceration – and only to have all his charges completely "dismissed" by the Spokane County Prosecutor, Larry Haskell.

And, even in the face of the Prosecutor's decision, Knezovich has continued to state that I am under

investigation by the Spokane County Sheriff's Office, the Spokane Police Department, the WSP, and even the FBI and the Joint Terrorism Task Force without ANY result and as verified by Public Records Requests of a Private Investigator and 40 year veteran of a Retired I/A Detective of the Spokane Police Department – Brian Breen – as well documented on <http://Examplepro.me>

During this period, Knezovich also demanded that the Spokane County Prosecutor send his dismissed charges to the Pend Oreille County Prosecutor's Office for a Formal Review - again, resulting in NO support for his false arrest and his subsequent charges and continuing false allegations.

Knezovich is currently violating the Sheriff's Department's Policies and Procedures in electioneering, endorsing candidates, supporting candidates and in interfering into the political affairs and outcomes of local municipalities within Spokane County resulting in a multitude of Community Problems involving the illegal activities of those above, including; Bob West and his daughter Brandi Peetz – names that you should be familiar with and while continuing is his placement of billboards for Crime Check containing his image in violation of your standing order against doing so along with your suspended fine.

For the record, as Sheriff Knezovich is now facing a formal request to the Prosecutor's Office in being placed on the Spokane County Prosecutor's Brady Cop List, De-Certification as a Law Enforcement Officer in Washington State for lying against me in my matter, and even a Civil Right's Lawsuit, I must ask you, if it is possible that Knezovich is also lying to the PDC, in providing NO evidence in this matter while providing undocumented and while desperately misleading you in these baseless allegations?

Please provide me with the evidence to his allegations accordingly along with a reasonable time-frame in an opportunity to properly respond accordingly, and my attorney will be pleased to do so. As Sheriff,

and should I choose to formally announce, I will abide by the Sheriff's Departments Policy and Procedures and the PDC's Policies and Procedures – for which the record in your office should reflect that I have a perfect record in following.

Respectfully,  
Scott Maclay

this battle for the truth began 18 years ago with the formation of the City of Spokane Valley and then Sergeant Knezovich's efforts in providing thousands of dollars from the Deputy Sheriff's Association in campaign contributions to candidates who would vote in favor in providing him with our law enforcement contract - a practice that continues today - in interference of our normal progression to complete independence.
