Hello,

Regarding a violation of RCW 42.17A.555, the yes committee reserved the public meeting room (anyone can reserve including the no committee). We did not use the room to campaign (not open to the public). We used the room to discuss our plan moving forward. We requested the room in accordance with the departments room use policy. I acted as a private citizen not an elected official. My role on the yes committee is the same as Gerry Gustafson's role on the no committee, a private citizen. The fire department has meeting rooms available to any group, just like a library. I am not in violation of the RCW.

Respectfully,

Gina Blanchard-Reed
