I apologize for any of these late filings. Most of these allegations stem from PDC website being down at the time the C-4s were due so I was unable to upload C-4s on the due date. Those were uploaded as soon as I found the PDC ORCA system to be back up and running. In other cases, C-4s were filed a few days late. In rare cases, and these were in off-election year when very little activity happened, I missed a filing more than thirty days late. A review my entire six year history of online filing, about 98% of those reports were complete and filed on-time. I regret the few instances of late filings. Furthermore, I have put in place a system to avoid any delay in future C-4 filings. Thank you for your kind understanding.

Respectfully,

**Liz Pike, WA State Representative**
