

File a Formal Complaint - Kimberly Wingett-Bertrand

The latest mailing titled "Voters Guide" by the Washington Conservation Voters Action Fund, on behalf of the Vote Don Orange Campaign, has blatantly lied in a quote stating, "His [Kris Greene] former campaign manager said, "Big Oil is completely dictating where every penny [in his campaign] is going,"" I have attached a photo with a box surrounding the quote. As can be confirmed with your PDC filings, Kris has had ONE former Campaign Manager, and that is myself. I have never made this statement about Kris and inflammatory allegations about Kris' former Campaign Manager (which is me) is defaming my character, not to mention spreading lies against Kris' campaign, which I continue to support. Any and all mentions by WCA and Don Orange's campaign about Kris' former Campaign Manager (me) that allege not supporting Kris are false. The consequences of them spreading this false information can have a long term effect on my reputation within this community, which I have spent years serving. This is all libelous information and can be proved wrong via your PDC records. Thank you for taking the time address this egregious offence.
