Hello:

I have no knowledge of who placed this banner or where it is. My campaign did not pay for it and as far as I know the other candidates listed on it were not notified. I believe this is a private individual and it is his or her building. However I do not know their name or how to contact them.

I was under the impression also that banners were exempt from sponsor ID. If this is not the case please advise.

Please let me know what my responsibility is for this in light of the above whether I should try to find who placed it and ask them to remove it or put their name on it as a sponsor?

Thank you,

Debi Wagner
