Hello Fox Blackhorn,

Regarding this complaint, I, nor anyone associated with my campaign, had any involvement with this sign whatsoever. No involvement with the creation of the graphic, no involvement with the production of the sign and no involvement with the installation of the sign in its current location. I also have no idea who currently owns and/or occupies the building where the sign is located. Drafting this email in response to the complaint is the first and only involvement I have had with the sign in question.

Thank you!
