Hello,

The following is the written statement I submitted to the Attorney General's office regarding this complaint:

The treasurer of the Burien for All political committee would like to thank involved citizen Glen Morgan for his devoted attention to detail. He is correct in that a C4 documenting the in-kind use of a PO Box, fair market value of \$12, was not filed within five days of the establishment of the committee on August 12, 2017. This expenditure, along with \$2.50 in PayPal fees, has now been properly documented and the appropriate C4 has been amended. These errors are due only to the inexperience of the treasurer. As this written response is for the benefit of the Washington public, the treasurer would also like to thank the dedicated staff at the Public Disclosure Commission who patiently train campaign workers, the vast majority of whom are volunteers with no previous political experience.

Please let me know if this is sufficient to post on the website or if other info should be included. Thank you,

Lynne Marie Randall
