

Mr. Ragins,

I would like to add some more information to my original statement. If you go to this web site onelewiscounty.info - Website and Domain information | wa-com.com you will find that the website onelewiscounty.com was started on the 28th of July and should have been included on a Aug. Financial report along with the Bank account that was opened before the July 28th C-1pc was filed, not just the Sept. Financial report. It also shows that Alicia Bull through her position as Chamber Executive director made and bought the site with funds from the Chamber of Commerce. I feel that unless the Chamber can show that public funds from The cities, county, school district, and port districts was not used to pay for this PAC in donations from the Chamber to the PAC then that should violate the law prohibiting the use of public funds to pay for campaigns.

Thank you.

John VerValen
