

This is to address the allegation of campaign violations.

1. The issue of not breaking down expense was a reimbursement to me from the campaign in the amount of \$100.30 to cover what it cost me to stay at the motel so that I could campaign for 2 days without having to drive 2 hours each way.
2. The issue of the long list of late filing C3's and C4's was due to instruction from the PDC to go back and resubmit all of the filings from the time that a check was written from the campaign account that was never cashed or cleared the bank. Because the check never cleared the bank, my campaign account and checking account were always out of balance. At the time we were transferring funds from my House of Representative campaign to the Senate campaign my treasurer asked the PDC what we should do. Per the PDC instructions (See Attachment 1) the check was deleted and the reports from that time forward were amended.
3. As for the issue of 2 reports being 3 and 9 days late, my treasurer entered the contributions at the appropriate time but did not realize until a few days later that she failed to transmit to the PDC

.

Attachment 1

Hi dean,

If I understand correctly not only was the check written and never cashed, the service that it was written for was not provided.

These funds will need to be added back into your total cash on hand. This will also allow you to add these funds into the pool of funds that can be transferred from the 2016 House race to the 2016 Senate race.

Please go back to this expenditure and either delete it entirely or change the dollar amount to zero. This will change the last several C-4 reports submitted for 2014. They will need to be resubmitted.

Unfortunately it will also change the carry forward amount used for the beginning of the 2016 House campaign. You will need to edit the beginning balance (FILE>COMMITTEE INFORMATION>CARRY FORWARD CASH) to reflect the new amount for 2014.

Last, every C-4 filed for the 2016 House campaign will change and need to be resubmitted.

Let me know if you need further instructions.
