Dear Mr. Ragins –

When I earlier responded on behalf of the City I noted that the City Council would be considering the topic of the constituents' comments section of the Council agenda and taking follow-up action. (see my letter of September 25, 2017)

I would like to update you and noted that on November 16th Council adopted Resolution 2227 which addresses procedure at Council meetings, to, among other things, add the following language:

Speakers shall refrain from comment or behavior that involves:

- a. Disorderly speech or action; name-calling or personal attacks; obscene or indecent remarks; and derogatory comments on personalities;
- b. Promoting or opposing candidates for public office or promoting or opposing upcoming ballot measures.

A copy of that resolution is attached.

Thank you for your attention to this matter.

James McNamara

City Attorney

City of Longview
