Hello PDC. I specifically PDC staff before I went to press on my fundraising flyer and the contribution envelopes. In my conversation with PDC staff on the phone, I specifically asked if I was required to disclose what office I was running for. PDC staff confirmed this information WAS NOT REQUIRED on my printing for the August 2017 Hootenanny fundraiser nor was it required to be printed on the contribution envelopes. At this time, I cannot recall the name of the filer assistant who provided this information. Had your PDC staff informed me otherwise, I would have been happy to put the office that I am seeking on both the contribution envelope and the Hootenanny flyer. That phone conversation with the PDC would have taken place sometime in late July, or early August, after the 2017 legislative session ended, however, I don't know that exact date.

Since the Hootenanny, I formally announced my candidacy for Clark County Council Chair, filed a C-1 and have been reporting regularly to the PDC for this office. In October, I had a subsequent fundraiser. The flyer I used for this event is attached. You can see that it clearly states the office I am running for. Prior to the Hootenanny in August, I had not announced what office I was running for.

Please feel free to contact me with any questions.
