

"As a mother of two, all my sons and I see are hotels being built. While we're known as an airport city, SeaTac is a vibrant and diverse community that also deserves adequate resources for families."

## Vote Shaunie Wheeler For SeaTac City Council

Dear Neighbor,

With my experience working with government and my active role in the community, I know I can get results.

We can and should restart the sidewalk projects that make our neighborhoods safer for pedestrians. We can ensure stronger public safety, smart economic development that creates family wage jobs and accountability with your tax dollars.

As a volunteer for South King County Votes, Win With Women and as the president for Washington Young Emerging Labor Leaders, I'm connected to underserved communities and well-trained in finding solutions that serve everyone.

Let's make sure when council convenes every resident knows they have a voice representing them.

I ask for your vote.

Shaunie works in government relations for the Electrical Workers across the street from Angle Lake and lives with her two sons, Erikson and Caleb in South SeaTac.
