To Whom it May Concern --

I am writing today in response to PDC Complaint #24161. Below, please find my numbered responses to the allegations made against me.

Response to Allegation #1

RCW 42.17A.555 applies only to elected officials and public employees.

I am neither an elected official nor a public employee, so this statute is not applicable.

Response to Allegation #2

See above response. Complainant seems to have a poor understanding of this statute.

Response to Allegation #3

I have made no malicious or defamatory statements about my opponent.

The statement appearing on my website that the complainant references is accurate. The fact that she disagrees with this statement is not dispositive.

In conclusion, all of the allegations made against me are frivolous and without merit.

For this reason, I am requesting that the PDC immediately issue a "returned with no action" letter to both myself and the complainant.

Please don't hesitate to contact me if you have any questions.

Regards,

Laura Ann Garris
